

# Cumulative Index 1989

## Volume 27

<b>January</b>	<b>RADIOLOGY OF THE PANCREAS</b> , pages 1-193
<b>March</b>	<b>MRI OF THE HEAD AND NECK</b> , pages 195-479
<b>May</b>	<b>HYPERTHERMIA</b> , pages 481-630
<b>July</b>	<b>CT OF THE GASTROINTESTINAL TRACT</b> , pages 631-838
<b>September</b>	<b>MUSCULOSKELETAL TRAUMA</b> , pages 839-1057
<b>November</b>	<b>CARDIOPULMONARY IMAGING</b> , pages 1059-1282

Note: Page numbers of issues and articles are in **boldface** type.

"ABCS" method, to evaluate spinal trauma, 858

Abdomen, CT of, for abscesses, in Crohn's disease, 720

for postoperative complications, 787-804

abdominal wall hematoma, 790

abscesses, 799-801

afferent loop obstruction, 801

anastomotic leakage, 797

bile leakage, 796-797

bowel obstruction, 802

incisional hernia, 790-791, 793

intra-abdominal bleeding, 798

pancreatitis, 801

peritoneal effusions, 795

retained surgical foreign bodies, 802

technique for, 787-788

wound infection and dehiscence, 788

routine, 642-643

Abscesses, CT of, abdominal, in Crohn's disease, 720

bowel, 781

intra-abdominal, 660-663

periappendiceal, 756-758, 760-761

postoperative abdominal, 799-801

hepatic, appendicitis and, 757

pancreatic, and biliary tract, 98

clinical features of, 66

CT of, 26, 28-29

percutaneous drainage of, 71-72

Acetabulum, trauma to, CT of, 936-938

Achilles tendon, rupture of, diagnostic imaging of, 922

MRI of, 992

ultrasonography of, 974-974

Acquired immunodeficiency syndrome. See also *Immuno-compromised host*.

thoracic infections in, nuclear medicine detection of,

**1067-1076**

common pulmonary complications of AIDS, 1067-1068

gallium citrate scanning in. See *Gallium citrate scanning*.

nonscintigraphic diagnosis in, 1068

Acromioclavicular joint, trauma to, diagnostic imaging of, 894

Acute gastrointestinal disorders, CT of, 773-786

for bowel loop abnormalities, 783-784

for bowel wall thickening, 773-776

for intraluminal masses, 778-779

for lumen distention, 777-778

for lumen narrowing, 778

for mesenteric abnormalities, 782

for pneumatosis intestinales, 776

for signs of fistulas, 781-782

for signs of perforation, 779-781

for vascular abnormalities, 782-783

Acute myocardial infarction, intervention in, **1205-1215**

angiographic considerations, 1210-1213

assessment of lesion morphology, 1212-1213

measurement of residual stenoses, 1210-1212

measurement of residual stenosis, 1212

current and future areas of investigation, 1213

reperfusion trial endpoints, 1205-1207

left ventricular function, 1205-1207

recanalization, 1205

trials of percutaneous transluminal coronary angioplasty, 1208-1210

trials of thrombolytic therapy, 1207-1208

Adenitis, tuberculous, MRI of, 418

Adenocarcinoma, CT of, duodenal, 702

gastric, 689, 691-693

small bowel, 709

in Crohn's disease, 723

pancreatic ductal, **121-128**

clinical features of, 107-110, 112-114

radiologic diagnosis of, 121-125

by angiography, 125

by CT, 121-123

by endoscopic retrograde cholangiopancreatography, 123, 125

by ultrasonography, 123

staging of, 125-128

by angiography, 126

- Adenocarcinoma (Continued)**  
 pancreatic ductal, staging of, by CT, 125-126  
 CT and surgical correlation, 126, 128  
 pancreatic mucinous, clinical features of, 180-182  
**Adenomas**, CT of, small bowel, 708  
 MRI of, parathyroid, 431-432  
 pituitary, 270  
 pleomorphic, of salivary glands, 385  
 pancreatic microcystic, clinical features of, 163-165  
**Adenopathy**, mediastinal, esophageal carcinoma and, 675  
**Adhesive capsulitis**, of shoulder, arthrography of, 966  
**Adrenal glands**, lung metastases to, MRI of, 1109  
**Afferent loop obstruction**, abdominal surgery and, CT of, 801  
**AIDS**. See *Acquired immunodeficiency syndrome*.  
**Airways**, malignant invasion of, MRI of, 1104  
**Alkylating agents**, and hyperthermia, tumoricidal effects of, 622  
**Ammonium citrate**, in MRI, 806-807  
**Aneurysms**, MRI of, of neck, 418  
 sinus of Valsalva, 1178  
**Angiofibromas**, juvenile, MRI of, 321, 323  
**Angiography**, of arterial complications of pancreatitis, 82-83  
 of cardiac tamponade, 1120  
 of pancreatic mucinous cystic neoplasms, 169  
 of pelvic trauma, 879  
 of pericardial constriction, 1117-1118  
 radionuclide, of situs solitus, 1152  
 to diagnose pancreatic ductal adenocarcinoma, 125  
 to stage pancreatic ductal adenocarcinoma, 126  
**Angioplasty**, balloon. See *Balloon angioplasty*.  
 laser. See *Laser angioplasty*.  
 percutaneous transluminal coronary, for acute myocardial infarction, 1208-1210  
**Angiologist**, in CT, 647  
**Ankle**, fractures of, CT of, 938-939  
 injuries of, diagnostic imaging of, 919-922  
 MRI of, for ligament injuries, 997  
 two-/three-dimensional CT of, 952-955  
**Anterior cruciate ligament**, injuries of, MRI of, 995  
**Antibiotics**, antineoplastic, and hyperthermia, tumoricidal effects of, 622  
**Antimetabolites**, and hyperthermia, tumoricidal effects of, 622  
**Aortic arch**, MRI of, for congenital anomalies, 1171-1178  
 aneurysms of sinus of Valsalva, 1178  
 coarctation of aorta, 1174-1175  
 double aortic arch, 1175-1176  
 hypoplastic aortic arch, 1175  
 Marfan's and Turner's syndromes, 1178  
 patent ductus arteriosus, 1175  
 right aortic arch, 1174  
 supravalvar aortic stenosis, 1178  
 techniques for, 1173-1174  
 transposition of great vessels, 1176  
 truncal abnormalities, 1176, 1178  
 in postoperative patients, 1178  
**Aortic coarctation stenosis**, balloon angioplasty for, 1229-1231  
**Aortic invasion**, of esophageal carcinoma, 671  
**Aortic valve stenosis**, balloon valvuloplasty for, 1233-1235  
**Appendicitis**, CT of, 753-762  
 aspiration and drainage of periappendiceal abscesses, 760-761  
 complicated cases, 754  
 conditions mimicking appendicitis, 758-759  
 technique for, 753-754  
 uncomplicated cases, 754, 756-757  
 unusual manifestations of, 757-758  
 vs. contrast enema and ultrasonography, 759-760  
**Apudomas**, pancreatic. See *Tumors, pancreatic endocrine*.  
**Argon laser angioplasty**, current uses of, 1219  
 vascular uses of, 1218  
**Arteries**, coronary. See *Coronary arteries*.  
**Arteriography**, of pelvic trauma, 879  
 to localize pancreatic islet-cell tumors, 139, 144, 147-148  
**Arthritis**, traumatic, scintigraphy of, 1006  
**Arthrography**, of knee. See *Knee*.  
 of shoulder. See *Shoulder*.  
 of upper extremity tendon injuries, 895  
 of wrist. See *Wrist*.  
**Arthroscopy**, of wrist, vs. arthrography, 962  
**Articular cartilage**, and bones, MRI of. See *Bones*.  
 integrity of, ultrasonography of, 981  
**Asbestosis**, detection of, high-resolution CT in, 1095  
**Ascites**, CT of, 657  
**Aspergillus species**, pneumonia due to, in immunocompromised host, 1061  
**Asplenia syndromes**. See *Heterotaxic syndromes*.  
**Atelectasis**, vs. central mass, MRI of, 1109  
**Atrial balloon septostomy**, uses of, 1237  
**Atrial septal defect**, transcatheter closure of, 1237  
**Avascular necrosis**, complicating fracture, scintigraphy of, 1007, 1009-1010  
**Avulsion injuries**, diagnostic imaging of, in children, 1017  
**Axial compression injuries**, of cervical spine, diagnostic imaging of, 865, 867  
 of thoracolumbar spine, diagnostic imaging of, 871-872  
**Bacteria**, infections due to, in immunocompromised host, 1067  
 pneumonia due to, in immunocompromised host, 1060-1061  
**Baffle and shunt obstruction**, balloon angioplasty for, 1236  
**Balloon angioplasty**, for aortic coarctation stenosis, 1229-1231  
 for baffle and shunt obstruction, 1236  
 for discrete subaortic stenosis, 1237  
 for native aortic coarctation, 1231-1233  
 for pulmonary artery stenosis, 1225, 1227-1229  
 for pulmonary vein obstruction, 1236-1237  
**Balloon catheters**, for venous complications of pancreatitis, 88-89  
**Balloon valvuloplasty**, for aortic valve stenosis, 1233-1235  
 for bioprosthetic valves, 1235  
 for mitral stenosis, 1235  
 for pulmonic stenosis, 1223-1225  
**Barium enema**, vs. CT, of appendicitis, 759-760  
 of diverticulitis, 750-752  
**Barium suspensions**, in CT, 635, 639-640, 642, 717-718  
**Battered child syndrome**, diagnostic imaging of, 1017, 1021  
**Biceps tendon**, injuries of, ultrasonography of, 978  
**Bile**, leakage of, abdominal surgery and, CT of, 796-797  
**Biliary tree**, dilatation of, in chronic pancreatitis, ultrasonography of, 826-828  
 in AIDS infections, CT of, 765  
**Bilomas**, abdominal surgery and, CT of, 659-660, 797  
**Bioprosthetic valves**, balloon valvuloplasty for, 1235  
**Biopsy**, image-guided, for pleural effusions, 1266  
 lung, of bacterial infection, in immunocompromised host, 1065  
 needle aspiration. See *Needle aspiration biopsy*.  
**Bladder**, rupture of, diagnostic imaging of, 880-881  
**Bland-White-Garland syndrome**, clinical features of, 1131-1132  
**Bone marrow transplants**, in immunocompromised host, CT of, 768-770

- Bone scans, of nonhealing fractures, 1046-1047
- Bones, and articular cartilage, injuries of, MRI of, 983-1002
- for bone bruises, 984
  - for osteochondral injuries, 984, 986
  - for scaphoid fractures and complications, 988
  - for stress fractures, 986, 1004-1006
  - for tibial plateau fractures, 914-916, 986-988
  - grafted, viability of, scintigraphy of, 1007
- Bowel, obstruction of, abdominal surgery and, CT of, 802
- small. See *Small bowel*.
- Bowel loops, abnormalities of, CT of, 783-784
- Brachial plexus, malignant invasion of, MRI of, 1106
- Brain, damage to, facial trauma and. See *Trauma, facial*.
- magnetic resonance spectroscopy of, 251
- Breast, recurrent/metastatic carcinoma of, combined irradiation and hyperthermia for, 527-528
- Bronchial abnormalities, high-resolution CT of, 1092, 1094
- Bronchogram, of left isomerism, 1153
- Bursitis, subacromial, diagnostic imaging of, 897, 899
- Buschke-Leowenstein tumor, vs. rectal carcinoma, 737-738
- Calcaneus, fractures of, CT of, 939
- injuries of, diagnostic imaging of, 924
  - two-/three-dimensional CT of, 952-955
- Caldwell view, in routine radiographic series, 839
- Cambridge classification, of endoscopic retrograde cholangiopancreatography. See *Endoscopic retrograde cholangiopancreatography*.
- Candida species, pneumonia due to, in immunocompromised host, 1061
- Capsulitis, adhesive, of shoulder, arthrography of, 966
- Carcinoma, colorectal, combined chemotherapy and hyperthermia for, 624
- CT of, colonic and rectal. See *Colon*.
  - perforated, vs. diverticulitis, 750
  - gastric and pancreatic, combined chemotherapy and hyperthermia for, 625
- Gd-DTPA-enhanced MRI of, squamous cell, of head and neck, 232
- high-resolution CT of, lung, lymphangitic spread of, 1089-1090
- MRI of, esophageal, 808
- floor of mouth, 337, 339-340
  - gastric, 808
  - lung, 1101-1102
  - oropharyngeal, 344
  - squamous cell, nasopharyngeal, 323-324, 327
- pancreatic acinar cell, 114-115, 186-187
- pancreatic adenocarcinoma, 178-180
- pancreatic anaplastic, 182
- pancreatic mixed, 187
- pancreatic osteoclast-type giant cell, 183-184
- pancreatic pleomorphic giant cell, 184-186
- recurrent/metastatic breast, combined irradiation and hyperthermia for, 527-528
- Cardiac displacement, definition of, 1148
- Cardiac tamponade, imaging of, 1118-1121
- Cardiomyopathies, dynamic MRI of, 1200-1201
- Cardiopulmonary imaging, issue on, 1059-1252
- Cardiovascular system, dynamic MRI of, 1183-1203
- 0.5 T vs. 1.5 T, 1188
  - cycled multislice and dual spin-echo techniques for, 1183-1185
  - for cardiomyopathies, 1200-1201
  - for ischemic heart disease, 1195-1196, 1198
  - for pericardiac and intracardiac masses, 1198, 1200
  - for pericardial disease, 1200
  - for vascular abnormalities, 1200
  - for ventricular and valvular function, 1188-1189, 1191-1192, 1195
  - partial flip angle fast gradient-echo imaging, 1185-1186
  - spin-echo vs. gradient-echo imaging, 1186-1188
- Carotid space, tumors of, MRI of, 369, 373
- Castleman's disease, clinical features of, 1079
- Catheterization, interventional, in congenital heart disease. See *Congenital heart disease*.
- Cerclage wires, to stabilize fractures, 1038-1039
- Cerebrospinal fluid, CT of, 659
- Cerebrospinal fluid rhinorrhea, in frontal nasal fractures, 841
- Chemotherapy, combined with hyperthermia, 621-627
- biologic rationale for, 621-623
  - in vitro investigations, 621-622
  - in vivo investigations, 622-623
  - clinical studies of, 623-625
  - localized hyperthermia, 624-625
  - regional perfusion hyperthermia, 624
  - whole body hyperthermia, 623-624
  - heat and drug resistance in, 625-626
  - thermal dose response in, 625
  - combined with radiation therapy, for esophageal carcinoma, 670
- Chest wall, malignant invasion of, MRI of, 1104, 1106
- Chest wall trauma, diagnostic imaging of, 886-888
- for flail chest, 886
  - for rib fractures, 886
  - for sternal fractures, 886
  - for sternoclavicular dislocations, 886, 888
- Child abuse, small bowel hematomas in, 713
- Cholangiography, of biliary obstruction, complicating pancreatitis, 94
- of hyperbilirubinemia, complicating pancreatitis, 100, 102
- Cholangiopancreatography, endoscopic retrograde. See *Endoscopic retrograde cholangiopancreatography*.
- Cholangitis, endoscopic retrograde cholangiopancreatography and, 41
- sclerosing, in inflammatory bowel disease, 725-726
- Choledocholithiasis, complicating biliary obstruction of pancreatitis, 98, 100
- Cholesteatomas, of middle ear, MRI of, 285, 290-291, 293, 295
- Chordomas, MRI of, neck, 421
- pituitary, 278
- Chronic pancreatitis, correlation of imaging and function in, 51-64
- function testing, 52-53
  - vs. CT, 59-62
  - vs. endoscopic retrograde pancreatography, 53-59
  - ultrasonography and exocrine function, 62
- endoscopic retrograde cholangiopancreatography in. See *Endoscopic retrograde cholangiopancreatography*.
- morphological and functional aspects of cholangiopancreatography in, 51-52
- ultrasonography of, 815-833
- calcifications in, 820-821
  - diagnostic value of, 829-831
  - dilatation of biliary tree in, 826-828
  - dilatation of main pancreatic duct in, 821, 823
  - echo-texture alterations in, 819-820
  - fluid collections in, 823, 825-826
  - obstruction of portal venous system in, 828-829
  - shape and contour changes in, 818-819
  - size alterations in, 815-818
- Cineangiography, of pulmonary arteries, 1178-1179
- Clavicle, fractures of, diagnostic imaging of, 892
- Clay shoveler's fracture, diagnostic imaging of, 861

- Coarctation, of aorta, MRI of, 1174-1175
- Colitis, in inflammatory bowel disease, 727
- pseudomembranous, CT of, 775
  - ulcerative. See *Ulcerative colitis*.
- Colon, complications of pancreatitis in, 76-78
- CT of, 646-647
    - for carcinomas, 731-741
      - accuracy of staging in, 738-739
      - differential diagnosis in, 737-738
      - imaging pitfalls in, 737
      - normal abdomen and pelvis in, 732-733
      - patient management in, 739
      - primary colonic carcinoma, 733-735
      - recurrent colonic tumor, 735-736
      - technique for, 731-732
      - tumors metastatic to colon, 736
    - MRI of, for carcinomas, 809, 811-812
- Colorectal carcinoma, combined chemotherapy and hyperthermia for, 624
- Compartment syndromes, complicating fractures, diagnostic imaging of, 1026
- MRI of, 990
- Computed tomography, high-resolution, of lung parenchyma. See *Lung parenchyma*.
- of acetabular fractures, 881-883, 885-886
  - of acute gastrointestinal disorders. See *Acute gastrointestinal disorders*.
  - of acute pancreatitis, clinical and pathologic background in, 19-20
    - for diagnosis, 20-26
    - for grading, 32-36
    - for staging, 31-32
    - vs. ultrasonography. See *Ultrasonography*.
  - of ankle and foot fractures, 938-939
  - of aortic arch, 1171
  - of appendicitis. See *Appendicitis*.
  - of arterial complications of pancreatitis, 82
  - of biliary obstruction, complicating pancreatitis, 95, 98
  - of calcaneal fractures, 939
  - of cervical lymphadenopathy, 422-428
  - of choledocholithiasis, complicating biliary obstruction of pancreatitis, 98, 100
  - of chronic pancreatitis, vs. pancreatic function tests, 59-62
  - of colon and rectum. See *Colon*.
  - of craniofacial fractures, 840
  - of diverticulitis. See *Diverticulitis*.
  - of esophageal neoplasms. See *Esophagus*.
  - of facial soft tissue injury, 441
  - of fungal pneumonia, in immunocompromised host, 1061
  - of gastrointestinal tract, issue on, 631-838
  - of gut. See *Gut*.
  - of hip dislocation, 909, 911
  - of humeral fractures, 892
  - of hyperbilirubinemia, complicating pancreatitis, 100, 102
  - of inflammatory bowel disease. See *Inflammatory bowel disease*.
  - of intra-abdominal fluid collections. See *Intra-abdominal fluid collections*.
  - of knee fractures, 938
  - of left isomerism, 1153
  - of nonhealing fractures, 1044
  - of orbital fractures, 444
  - of pancreatic mucinous cystic neoplasms, 168-169
  - of pancreatic papillary cystic tumors, 172
  - of pancreatic pseudocysts, abscesses, and fistulas, affecting biliary tract, 98
  - of pancreatitis and complications, 67-68
  - of pelvic and acetabular trauma, 874, 936-938
  - of pleural effusions, 1249-1250, 1252
  - of postoperative abdominal complications. See *Abdomen*.
  - of right isomerism, 1165
  - of shoulder fractures, 941-942
  - of small bowel. See *Small bowel*.
  - of spinal trauma, 856, 933-936
  - of sternoclavicular joint injuries, 894, 939
  - of tarsometatarsal fracture-dislocations, 939
  - of tibial fractures, 938
  - of wrist injuries, 942-943
  - of zygomatic tripod fractures, 848
  - to diagnose pancreatic ductal adenocarcinoma, 121-123
  - to localize pancreatic islet-cell tumors, 135, 139
  - to stage pancreatic ductal adenocarcinoma, 125-126
  - surgical correlation with, 126, 128
  - two-/three-dimensional, of musculoskeletal trauma, 945-956
    - in ankle and calcaneus, 952-955
    - in pelvis, 948, 951
    - in shoulder, 951-952
    - in sternoclavicular joint, 951
    - technique for, 945-948
- Computed tomography-arthrotomography, of elbow injuries, 900
- of glenohumeral joint injuries, 895
  - of shoulder fractures, 941-942
- Condyloma acuminatum, vs. rectal carcinoma, 737-738
- Congenital heart disease, interventional catheterization in, 1223-1240
- for aortic coarctation stenosis, 1229-1231
  - for aortic valve stenosis, 1233-1235
  - for atrial septostomy, 1237
  - for baffle and shunt obstruction, 1236
  - for bioprosthetic valves, 1235
  - for closure of atrial septal defect, 1237
  - for closure of patent ductus arteriosus, 1237
  - for closure of ventricular septal defect, 1237
  - for discrete subaortic stenosis, 1237
  - for mitral stenosis, 1235
  - for native aortic coarctation, 1231-1233
  - for pulmonary artery stenosis, 1225, 1227-1229
  - for pulmonary vein obstruction, 1236-1237
  - for pulmonic stenosis, 1223-1225
- Conventional tomography, of craniofacial fractures, 840
- of hip dislocation, 909, 911
  - of musculoskeletal trauma, 929-932
    - applications of, 930-932
    - vs. MRI, 931-932
    - technique for, 929-930
  - of spinal trauma, 856
  - of zygomatic tripod fractures, 848
- Corn oil-barium emulsions, in CT, 635, 639-640, 642
- Coronary arcade, examples of, 1144-1145
- Coronary arteries, congenital anomalies of, 1127-1146
- anomalies of course, 1132, 1134-1135
    - duplication of arteries, 1132, 1134-1135
    - myocardial bridging, 1132
  - anomalies of origin, 1127-1132
    - arising from pulmonary artery, 1131-1132
    - from sinus of Valsalva, 1127-1128
    - from systemic vessels, 1132
    - high or low take-off, 1127
    - multiple ostia, 1127
    - single artery, 1128, 1131
  - anomalies of termination, 1135, 1144-1145
    - coronary arcade, 1144-1145
    - extracardiac terminations, 1144
    - thebesian vein drainage, 1135, 1144

- Craniofacial fractures, conventional tomography of, 840  
 CT of, 840  
 diagnostic imaging of, 839-853  
   for frontal sinus fractures, 841  
   for LeFort fractures, 849  
   for mandibular fractures, 849-850, 852  
   for maxillary fractures, 848-849  
   for nasal fractures, 841, 843  
   for orbital fractures, 843-845  
   for skull fractures, 840-841  
   for zygomatic arch fractures, 845-846, 848  
   for zygomatic tripod fractures, 848  
   routine radiographic series in, 839-840
- Craniohypopharyngeal, pituitary, MRI of, 274, 276
- CRITOE, in evaluation of elbow injuries, in children, 1021
- Crohn's disease, CT of, 718-723  
   for carcinoma, 723  
   for diagnosis and drainage of abscesses, 720  
   for fistulas and sinus tracts, 722  
   for lumen, 719  
   for mesenteric disease, 719-720  
   for mucosal disease, 718  
   for mural disease, 718-719  
   for phlegmons, 722  
   for rectal and anal pathology, 722-723
- Cryptococcus* species, pneumonia due to, in immunocompromised host, 1061-1062
- Cryptosporidiosis, in AIDS, 765
- Cyclosporine, lymphoproliferative disorders due to, clinical features of, 1083  
   in immunocompromised host, CT of, 769
- Cystadenocarcinoma, pancreatic acinar cell, clinical features of, 186  
   pancreatic ductectatic mucinous, clinical features of, 180
- Cystadenoma, pancreatic ductectatic mucinous, clinical features of, 180  
   serous, clinical features of, 106
- Cystography, of bladder rupture, 880
- Cysts, aneurysmal bone, complicating fractures, diagnostic imaging of, 1033  
   CT of, mesenteric, 711  
   imaging of, pericardial, 1121-1123  
   MRI of, branchial cleft, 375, 413-414  
   pituitary, 270  
   salivary gland, 386  
   Thornwaldt, 320-321  
   thyroglossal duct, 414  
   pancreatic nontumoral, clinical features of, 172  
   ultrasonography of, epidermoid inclusion, 981  
   pancreatic, 823, 825-826
- Cytomegalovirus, infection due to, in AIDS, 765  
   pneumonia due to, in immunocompromised host, 1063  
   gallium citrate scanning of, 1070
- Desmoids, mesenteric, CT of, 711-712
- Dextrocardia, definition of, 1148
- Diatrizoate sodium, in CT, 687
- Diplopia, in orbital fractures, 843
- Diverticula, duodenal, CT of, 704
- Diverticulitis, CT of, 743-752, 714  
   cecal, vs. appendicitis, 758-759  
   for differential diagnosis, 750  
   for staging, 744-750  
     stage 0, 744  
     stage I, 744, 747  
     stage II, 747  
     stage III, 747, 750  
     stage IV, 750  
   technique for, 743-744  
   vs. barium enema, 750-752
- "Dolan's square," in routine radiographic series, 840
- Dressler's syndrome, imaging of, 1118
- Dukes classification, for staging colonic tumors, 738-739
- Duodenum, complications of pancreatitis in, 74-76  
   CT of, 646, 701-704  
     for benign neoplasms, 701-702  
     for malignancies, 702  
     for metastases, 702  
     for non-neoplastic lesions, 703-704  
     normal anatomy in, 701  
     technique for, 687-689
- Duplications, gastric, CT of, 699
- Duverney's fracture, diagnostic imaging of, 875
- Ears, mastoid and middle ear disease of, MRI of, 283-299  
   for inflammatory disease, 285, 290-291  
   for neoplasms, 291, 293-295  
   for postoperative treatment, 295, 297-298  
   for trauma, 295  
   normal anatomy and variants in, 283-285
- Echocardiography, two-dimensional Doppler, of aortic arch, 1171-1172  
   of Marfan's syndrome, 1178  
   of pulmonary arteries, 1179  
   of Turner's syndrome, 1178
- Edema, pulmonary, high-resolution CT of, 1090
- Effusions, pericardial, imaging of, 1118-1121  
   peritoneal, abdominal surgery and, CT of, 795  
   pleural. *See Pleural effusions.*
- Elbow, injuries of, diagnostic imaging of, 899-900  
   in children, 1021-1022  
   MRI of, 993
- Electrocardiography, of left isomerism, 1153
- Embolization, angiographic, for arterial complications of pancreatitis, 84-86  
   for pancreatic islet-cell tumors, 154-155  
   for pelvic vascular injuries, 879
- Emphysema, high-resolution CT of, 1094
- Empyema, in AIDS, 1067  
   thoracic, image-guided catheter drainage of, 1261-1263
- Endoscopic retrograde cholangiopancreatography, in biliary obstruction, complicating pancreatitis, 94-95  
   in chronic pancreatitis, 39-50  
     classification in, 44-46  
     complications of, 41-42  
     endoscopic technique for, 39-40  
     for research, 49  
     indications for, 46, 48  
     pancreas divisum, 48-49  
     radiological technique for, 40-41  
     team approach to, 39  
     terminology in, 42-44  
   in pancreatic ductal adenocarcinoma, 123, 125  
   in pancreatic mucinous adenocarcinoma, 182  
   in pancreatic mucinous cystic neoplasms, 169
- Endoscopic retrograde drainage, of biliary complications of pancreatitis, 103
- Endoscopic retrograde pancreatography, in chronic pancreatitis, vs. pancreatic function tests, 53-59
- Enteritis, radiation, CT of, 713-714
- Eosinophilic granulomas, MRI of, 279
- Esophagectomy, for esophageal carcinoma, 670
- Esophagus, CT of, 645-646  
   for neoplasms, 667-685  
   epidemiology of, 667-668

## Esophagus (Continued)

- CT of, for neoplasms, for radiation therapy, 680-681
  - for staging, 668-669, 670-677
    - aortic invasion, 671
    - mediastinal adenopathy, 675
    - pericardial invasion, 671, 675
    - subdiaphragmatic metastases, 675, 677
    - tracheobronchial invasion, 670-671
  - for treatment, 669-670
  - literature on, 677-680
  - postoperative, 681-683
  - tumor behavior, 668
- MRI of, for carcinoma, 808
- Eustachian tube, dysfunction of, MRI of, 285
- Extraocular muscles, injuries of, MRI of, 443-444

Face, trauma to. See *Trauma, facial*.

Fat emboli syndrome, complicating fractures, diagnostic imaging of, 1035-1036

Fat-CAT, in CT, 636, 640, 643, 646, 648

Feet, fractures of, CT of, 938-939

Femoral head, avascular necrosis of, in inflammatory bowel disease, 726

Femur, fractures of, diagnostic imaging of, 911-913

Ferromagnetic seeds, inductively heated, in interstitial hyperthermia, 599-602, 585-587

biocompatibility of, 596-597

clinical experience with, 586-587, 598-599

direct tissue heating in, 590-591

engineering aspects of, 585-586

future potential of, 601-602

limitations of, 599-601

effects of blood flow, 600

heating of foreign metal objects, 600-601

tissue trauma, 599

tumor geometry, 599-600

magnetic induction system in, 595-596

migration in, 597

power required for tumor heating in, 591

principles of operation, 589-590

rationale for use, 591-592

self-regulating, 592-595

Fibrocartilage, injuries of, MRI of, 997-999

Fibrosis, pulmonary, high-resolution CT of, 1090

Fibula, injuries of, diagnostic imaging of, 916-919

Fine needle aspiration, of pancreatic contents, 68-69

to diagnose pancreatic cystic tumors, 170, 172

Fistulas, congenital coronary arteriovenous, 1135

CT of, aortoduodenal, 704

enteric, 781-782

in Crohn's disease, 722

pancreatic, and biliary tract, 98

Flail chest, diagnostic imaging of, 886

Flexor tendon, of hand, injuries of, ultrasonography of, 978

Fluid collections, intra-abdominal. See *Intra-abdominal fluid collections*.

pancreatic, clinical features of, 65-66

CT of, 21, 32-33, 35

ultrasonography of, 12

pleural. See *Pleural effusions*.

Foreign bodies, CT of, in bowel, 781

retained surgical, 802

diagnostic imaging of, for hand injuries, 905-906

MRI of, orbital, 442-443

ultrasonography of, soft-tissue, 979

Fractures. See also *Trauma*.

diagnostic imaging of, acetabular. See *Pelvic trauma*.

aneurysmal bone cyst complicating, 1033

ankle and foot, 919-920, 938-939

arterial injury complicating, 1023-1024

avascular necrosis complicating, 1007, 1009-1010

Barton, 901

blood loss complicating, 1027

calcaneal, 924, 939

carpal, 901-902, 905

chest wall. See *Chest wall trauma*.

clavicular, 892

clay shoveler's, 861

Colles', 901

compartment syndromes complicating, 1026

craniofacial. See *Craniofacial fractures*.

delayed healing or nonunion in, 1006, 1029-1030,

1032

distal radius, 901

Duverney's, 875

elbow, 899-900

fat emboli syndrome complicating, 1027, 1035-1036

femoral, 911-913

fibular, 916-919

fixation devices complicating, 1041, 1043-1051

fracture fragments in joint complicating, 1027

hangman's, 863, 934

humeral, 891-892

in children, elbow, 1021-1022

incomplete, 1015-1017

stress, 1017

toddler, 1015

triplane, 1015

infection complicating, 1006-1007, 1026-1027

Jefferson, 865, 934

knee, 938

Maissonneuve, 920-921

mandibular, 849-850, 852

maxillary, 848-849

myositis ossificans complicating, 1029

nasal, 841, 843

odontoid, 867

orbital, 843-845

osteoarthritis complicating, 1032-1033

osteocondral, 984, 986

osteolysis complicating, 1029

osteomyelitis complicating, 1028-1029

osteonecrosis complicating, 1032, 1047

patellar, 913

pelvic. See *Pelvic trauma*.

reflex sympathetic dystrophy complicating, 1029

refracture complicating, 1029

rib, 886

scaphoid, 988

scapular, 892

shoulder, 941-942

skull, 840-841

Smith, 901

spinal. See *Spinal trauma*.

sternum, 886

stress, 919, 986, 1004-1006

subcondylar, 916

synostosis complicating, 1029

talar, 922-924

tarsal, 924-926

thromboembolism complicating, 1027-1028

tibial, 914-916, 917-919, 986-988

uncomplicated musculoskeletal, 1003-1004

upper extremity, 891-892

viscus perforation complicating, 1024, 1026

wrist, 901-902, 942-943

zygomatic, 845-848

facial. See *Trauma, facial*.

MRI of, orbital, 444

- skull base, temporal bone, and mandible, 445
- Fungi, infections due to, in immunocompromised host, 1067
- pneumonia due to, in immunocompromised host, 1060-1061
- gallium citrate scanning of, 1070
- Gadolinium-DTPA, in MRI of extracranial head and neck lesions, 219-242
- impact of imaging, 222, 227-241
- on benign mixed tumors, 237, 239
- on leptomeningeal neoplastic involvement, 227, 232
- on lymphomas, 232, 237
- on perineural tumor infiltration, 227
- on posttreatment evaluation of neck, 232
- on schwannomas, 237, 239
- on sinonasal tumors, 227
- on squamous cell carcinoma, 232
- normal anatomy in, 221-222
